Candy Bars

We are very near the end of the candy bar sale. Only about 18 boxes to go. Have you sold your box yet? Know of a place you can sell them at? Stop by the office to pick up a box today!

Registration Packet

The re-enrollment packet went home with your Tiger Tracks last week. Attached to it you will find tuition prices and the 2011-2012 calendar. If you have any questions please feel free to contact the office.

START CREATING!!

Last year's Repurposed Art Show was so much fun that this year we are expanding! We are hoping that many school families, congregational members and even community artists will join in the fun. The Art Show will be held in conjunction with the Spring Open House & Easter Egg Hunt and MUCH help will be needed. If you are interested in participating or helping in any way, please read the information sheet in the spinner or contact: Mrs. Juliet Colby with questions or ideas. julietcolby@aol.com or call evenings: 729-0927

The Busy Bees

Happy Valentines Week! The preschoolers had a great time celebrating Valentine's Day by passing out Valentines and candy, making Valentines cards for each other, creating heart sun catchers, and much more. We had a fun Valentines party where the Busy Bees created a craft and ate yummy pink krispy treats. Thank you to Mrs. Rutkowski for putting together a fun Valentine's Day Party.

"Kindergarten Corner"

We are proud to announce that our team of Fang Readers is on first base. We are thankful for our parents who keep us reading every night. Fang came to visit and that was inspirational.

Our new news is that we will begin a unit on Space this week. Do you know that Space Shuttle program is coming to an end and we will be studying with a possible launch on Feb 24th? Come see our room at the end of Feb. We made planets, a cardboard shuttle, and even get decked out in space helmets. What a universe God created! Wednesday was made special with visitors for Donuts with Dad. Last week's Island Day was very fun too.

First and Second Grade Spotlight

In Science this week we reviewed weather concepts; while in Social Studies we learned about 3 kinds of resources! On Wednesday,

Veterans presented in our classroom! We learned about the importance of the American flag and how to fold it. Our class is in need of dry-erase markers. We use them for practicing letter formation, spelling words, and word work. Thank you in advance for your donation 😊

A HUGE THANK YOU

Thanks to all who helped work the Packer games this year. Over this past season, we raised \$7,110.00 to help meet the financial needs of Trinity Church and School.

We had 39 people work games this season, ranging from 19 to 79 yrs old, including church members, parents of school children, staff, family and friends.

Thanks again and God bless!!

What's Happening in 3rd and 4th Grade

The quartet from the Fox Valley Symphony visited our school Thursday. They came as part of the Partners in Education program for 4th graders. We always enjoy their visit and learn many new things about their instruments as well as the music we will hear when we go to the concert in March. This year's theme has to do with the circus. We are looking forward to hearing the concert.

Upper Deck

We started adolescent development classes. Mrs. Bedroske is teaching the girls, and Mr. Bedroske is teaching the boys.

Nugget- all 5th grade nuggets need to be known and the first 4th grade nugget is assigned for Monday, February 21st.

Math

Anna, Charity, Maria- close to taking a test on division with larger numbers

Keera, Jaden- working on measurement of length, mass, and capacity

Colyn, LuKayla, Danny, Morgan- using algebraic expressions, solving basic equations

Madison, Brandon- long division with models and paper and pencil

Maddie, Courtney, Tyler, Riley- multiplication problems of any size, meaning of multiplication

Kayla- basic fraction operations and comparing

Cody, Talon- still flying along, reviewing concepts with fractions

Elliot- took his test on fraction concepts (add, subtract, multiply, divide)

Bruce, Brice- working on probability, fundamental counting principle and permutations

Walker, Kaila, Bernard – still finishing tests

5/6 Science- beginning unit on physics, starting with atomic theory

7/8 Science- working on winds, Coriolis effect, and other factors influencing weather

L.A.- using theme, restarted work on prefixes, ready to start work on personal narrative
