Thursday, Mar. 10:	<b>Red/Pink/Athletic Wear Day</b> Diabetes Walk, 9am Concert by Pastor Billings, 1:30-2pm Faculty Meeting, 3:30pm
Friday, Mar. 11:	<b>NO SCHOOL –Teacher In-Service</b>

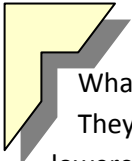

### National Lutheran Schools Week

This week is our yearly celebration of being a Lutheran School. Come and join us for a week filled with fun and festivities! Begin the week with us in a special service for National Lutheran Schools week, then join us Monday for a potluck and movies. Stop by the rest of the week for various activities in the day.

### The Busy Bees

The Busy Bees have been learning all about opposites this week. The preschoolers created lions and lambs in recognition of our opposite theme. Dr Seuss’s 107<sup>th</sup> birthday was on Thursday. We had a fun Seuss day in which the students traveled with their chapel families to each room and listened to a Dr. Seuss book. The preschoolers also went to the PAC to see “The Very Hungry Caterpillar”, which was a wonderful play.

## “Kindergarten Corner”

What’s up with those Kindergarten kids? WOW! They are writing numerals up to 30, printing in lowercase letters (mostly), and sounding out a sentence for their journals every day. It is fantastic to be in March. This is the “on fire” time to learn. Ask your child if he/she liked the green eggs and ham? The trip to the PAC was great as we were introduced to the books of Eric Carle. His artwork is gorgeous and so colorful. It is inspiring to us since we are illustrators in our own journals. Each child chose a planet to make this week. Which one did your child choose?

## First and Second Grade Spotlight

This week we have been working very hard on our Readers’ Theater “Tacky”. We have been rehearsing lines, creating costumes, and building scenery. We were very excited to present it to the Preschool and Kindergarten classes! During Reading, first grade learned how to writing questions; while second grade learned how to write a scene for a play. Our class is in need of washable, colored markers (regular or thin). We use them to illustrate and create sentences throughout the day. Any donations are deeply appreciated ☺

## What’s Happening in 3<sup>rd</sup> and 4<sup>th</sup> Grade

Our door decoration plans are in full swing. We are designing and will be putting our designs into action this week. We are determined to do our best so that we have a good chance of winning the door contest next week.

Fourth Graders are learning about WI and all the wonders of our beautiful state. We just finished the chapter on the crops and products that are produced in this state.

Third Graders just learned about Ellis Island. We found out that some of our relatives may have come through Ellis Island when they came to America.

## Upper Deck

We attended a musical at the Oshkosh Opera House on Wednesday. It was a cute retelling of our system of government. Kaila Olsen won 3<sup>rd</sup> place for her essay submitted to the Appleton Public Library. In doing so, she earned \$25 and will attend a banquet on March 8<sup>th</sup>. Congratulations! We welcomed a new student, Trevor, to 7<sup>th</sup> grade last week. Welcome!

**Nugget-** all 4<sup>th</sup> and 5<sup>th</sup> grade nuggets need to be known  
**Math**

**Anna, Charity, Maria-** have learned and demonstrated mastery of simple division

**Keera, Jaden-** worked on graphs and representation

**Colyn, LuKayla, Danny, Morgan-**working on multiplication algorithm of large numbers

**Madison, Brandon, Maddie, Courtney, Tyler, Riley-**working to achieve a mastery of concepts in chapter 9

**Kayla-**basic fraction operations and comparing

**Cody, Talon-**still flying along

**Elliot, Trevor-**getting ready for a test on ratio and proportion

**Bruce, Brice-** basic geometry and symbolism

**Walker, Kaila , Bernard –** working to solidify concepts

**5/6 Science-** physics, starting with atomic theory

**7/8 Science-**finished weather, starting chapter on taxonomy (not taxidermy!)

**L.A.-**using theme, restarted work on prefixes, writing to edit
